PROJECTS

ALDI Efficiency

Aldi is the common brand of two German family owned discount supermarket chains. Apps are used to assign tasks to employees and they can update the status of the task so that managers can get updates on the employee from their system.

Technologies Used: Swift 5, Push Notification, StoryBoard and Programmatic Design.

Snatch it. shop

Snatchit-shop transforms retail through “shoppable” content. We enable retailers' connection to our online marketplace to display their store and products for purchase. We increase awareness by creating new points of sale for your products using our unique influencer features. Influencers can create their own social shops using our app and earn ongoing commissions for their sales. We integrate with Shopify, Stripe, Zip pay
